Application/Control Number: 10/600,552

Art Unit: 3612

Detailed Action

Page 2

Restriction

1. Restriction to one of the following inventions is required under

35 U.S.C. 121:

I. Claims 1-13, drawn to a fragmentation-resistance instrument panel,

classified in Class 296, Subclass 70.

II. Claims 14-34, drawn to a method, classified in Class 425.

2. Inventions II and I are related as process of making and product made. The

inventions are distinct if either or both of the following can be shown: (1) that the

process as claimed can be used to make other and materially different product or

(2) that the product as claimed can be made by another and materially different

process (MPEP § 806.05(f)). In the instant case the process as claimed can be

used to make toys.

3. Because these inventions are distinct for the reasons given above and have

acquired a separate status in the art because of their recognized divergent

subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3612

- 4. A telephone call was made for the Attorney/Agent responsible for this application to request an oral election to the above restriction requirement, but did not result in an election being made.
- 5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examiners even though the requirement is traversed (37 CFR 1.143).
- 6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventor ship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventor ship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
